This "Typical Amino Acid Profile" represents the average ratio of amino acids naturally occurring in whey protein isolate. These numbers can slightly fluctuate from batch to batch as with all natural protein sources.

Formulated with the clinically-researched proprietary digestive enzyme blend **ProHydrolase®**, which:

- Supports the digestion of protein and the absorption of amino acids, the building blocks of muscle protein.
- Helps reduce occasional discomfort such as gas, diarrhea and bloating which are often associated with protein consumption.
- Makes protein supplements easier to digest and more enjoyable.

CAUTION: Not recommended for individuals with dairy allergies. Pregnant or nursing mothers, children under 18 years of age, or anyone with a known medical condition should consult a physician before use. This product is intended to supplement the diet with additional protein and should not be used as a meal replacement. Not for use as part of a weight loss program without the direct supervision of a healthcare professional. Excessive protein intake may result in impaired kidney function.
